GET RID OF ACNE AT THE SPEED OF LIGHT.

Have you tried numerous methods to get acne under control? Now, prescription medication and over-the-counter remedies can be a thing of the past. Why deal with the wait and potential side effects of those options when you can have clearer skin in typically just a few short treatments?

**Forever Clear BBL™** is a cutting-edge acne treatment that uses the power of light to comfortably and effectively clear acne without creams or medicine. BBL is the world’s most powerful IPL (Intense Pulsed Light) device delivering light energy deep into your skin to help treat acne, leaving you with clear, healthy, radiant skin.

I’ve had acne for a long time and have tried facials, creams and peels with little success. **Forever Clear BBL** has not only managed to get my acne under control, but my skin has stayed clear! Plus, my skin looks even younger!

Any Questions?

Q: Who is the ideal candidate for Forever Clear BBL?
A: Forever Clear BBL can be the right treatment for men and women of all ages who are experiencing active acne. Please consult with your healthcare provider to see if you are a candidate.

Q: How is it unique?
A: Forever Clear BBL treats acne deep within the skin. Intense Pulsed Light of this magnitude can only be found in a doctor's office. Forever Clear BBL is an effective, comfortable, fast, and safe treatment.

Q: What areas can be treated?
A: Most areas of your body can be treated. The most common treatment areas where acne is found is on the face, neck and back.

Q: How long does the treatment take?
A: It can take as little as 15 minutes, depending on the area you are looking to treat. Treatment time and frequency vary from patient to patient.

Q: Is the treatment uncomfortable?
A: The procedure is non-invasive and typically gentle and safe. Generally, there is no need for a topical anesthetic, however, your healthcare provider may choose to use it depending on his/her patients' needs.

Q: How many treatments will I need?
A: You can expect to see an improvement after just one treatment, but the total number of treatments needed varies from patient to patient. Your healthcare provider will personalize a plan for you.

Q: What should I expect after the treatment?
A: You may experience some redness that should resolve within a few hours. Consult your physician if it does not. Your treated skin will look clearer and pores will be less noticeable. Your healthcare provider will provide you with more information on what to expect as well as give you an aftercare plan to follow that will involve avoiding direct sun exposure and using sunscreen.

Q: What is the recovery time?
A: There is typically no downtime. Most patients can wear make-up and resume normal activities immediately. Please follow your healthcare provider’s aftercare plan until skin is completely healed – typically about one week after the treatment.
