FOREVER CHANGE HOW YOU TREAT ACNE

Forever Clear™ BBL® destroys acne-causing bacteria, reduces inflammation and redness, and makes way for clear, healthy skin. Offer patients an alternative to expensive creams and medicine with undesired side effects. Forever Clear BBL is fast, comfortable and non-invasive — with visible results after just one treatment, with no patient downtime.

Step
1

Deliver **BLUE** light into the skin, attacking acne bacteria.

Step
2

Then deliver **YELLOW** light, which reduces active inflammatory acne while preventing new breakouts and reducing the appearance of scars.

Step
3

For added benefit, deliver **INFRA-RED** light in rapid, gentle pulses to initiate the body's natural healing process and to enhance the benefits of the first two steps.

FOREVER CHANGE HOW YOU TREAT UNWANTED HAIR

Unlike traditional hair reduction devices that apply energy one pulse at a time, Forever Bare™ BBL® uses motion technology to deliver a low fluence in multiple pulses, protecting the skin while progressively raising the follicle temperature to the optimal level for hair removal.

- Safe and fast treatments thanks to large spot size and motion technology
- Easy, versatile treatments with intuitive user interface, quick change Smart Filters™ and Finesse Spot Adapters™
- CoolComfort™ technology for enhanced patient comfort
- Skin types I-V

Help patients reveal their soft, smooth skin without the hassle of shaving, tweezing or painful waxing.

REVEAL *soft smooth skin*
without hassle of shaving

Forever Bare is a wonderful treatment for both the patients and the operator! It is a very comfortable procedure and one that is performed quickly. An easy to use interface makes it safe and effective. In addition, the motion based technique assures a smooth result without any missed areas! Forever Bare is a great way to introduce new and younger patients to your practice!

USE ALONE OR COMBINED FOR IMPROVED APPEARANCE OF LAX SAGGING SKIN

SkinTyte™ uses infra-red light to deeply heat dermal collagen, while using the sapphire contact cooling of the BBL platform to protect the epidermis. With this advanced technology, the treatment initiates the body's natural healing process which leads to a more youthful appearance and reduction in the appearance of lax, sagging skin.

- Quick in-motion treatment
- Use alone or after any BBL HERO treatment for improved outcomes
- No downtime, no topical anesthetic and no consumables
- Safe and effective, customize with choice of Finesse Spot Adapters
- Skin type I-V
